

STEP BY STEP GUIDE TO MEASURING YOUR KITCHEN SPACE

Put all following information on the grid sheet on the opposite page following the example below.

1. Start measuring from the corner shown on the example drawing below.
2. Measure total length of all walls corner to corner.
3. Indicate window and door locations and sizes with individual corner to window/door casing dimensions. Include sizes on chart below.
4. Indicate door swings and locations of electrical plugs and centre line of sink. Include water line, drain locations, and check bulkhead height and projections. Note any other obstructions in the space.
5. Indicate appliance locations and sizes on chart below.
6. Double check all dimensions – individual and totals.
7. Book a design consultation at www.kitchencraft.pro!
