

STEP BY STEP GUIDE TO MEASURING YOUR SPACE

Please use the chart below and the grid on the next page to record this information. We've provided an example below.

1. Start measuring from the corner shown on the example below. Measure total length of all walls corner to corner.
2. Indicate window locations. Measure width and height and include the trim/casing. Record sizes on the chart.
3. Indicate door locations and door swings. Measure width and height and include the trim/casing. Record sizes on the chart.
4. Indicate locations of electrical plugs and centre line of sink. Include water line and drain locations. Confirm bulkhead height and projections. Note any other obstructions in the space.
5. Indicate appliance locations on the grid and record sizes on chart.
6. Double check all dimensions - individual and totals.
7. Book a free design consultation with a professional Kitchen Designer at www.kitchencraft.pro!
